PSE&G WorryFree Year One Limited Warranty – covers defective parts for repair or replacement without charge within one year of the original boiler installation date.

Weil-McLain Limited Warranty – Service/parts are provided as follows:

- Residential Water Boiler Warranty – Limited Lifetime
- Residential Steam Boiler Warranty – Limited 10 Year
- First Year: Weil-McLain warrants that its cast-iron boilers are free from defects in material and workmanship for one year from the date of installation. If any parts are found to be defective in manufacture, Weil-McLain will provide replacement of such defective parts.
- Second through Tenth Year – (Residential Water/Steam):  
Weil-McLain warrants that the **cast-iron sections** of its water and steam boilers are free from defects in material and workmanship from the date of installation for the second through the tenth year. If, during such time, any section is found to be defective, Weil-McLain will provide replacement of such defective section(s).
- Eleventh Year and Beyond – (Residential Water Only):  
Weil-McLain warrants that the **cast-iron sections** of its residential water boilers are free from defects in material and workmanship for the eleventh year and beyond from the date of installation. If, during such time period, any section(s) is found to be defective, Weil-McLain will provide replacement of such defective section(s) upon payment of a proportionate charge based on the time the boiler has been in service. The proportionate charge will be equal to the appropriate percentage of the list price of such section(s) at the time the warranty claim is made, and will be determined as follows:  
year 11 – 5%; year 12 – 10%; year 13 – 15%; year 14 – 20%; year 15 – 25%; year 16 – 30%; year 17 – 35%; year 18 – 40%; year 19 – 45%; year 20 – 50%; year 21 – 55%; year 22 – 60%; year 23 – 65%; year 24 – 70%; year 25 & beyond – 75%.

The warranty extends only to the original consumer/purchaser and is non transferable.

# Quality Boilers for Fewer Repairs and Longer Life

HIGHER EFFICIENCY AND LOWER OPERATING COSTS
