

Executive Profile

Enrique Mejorada

Vice President - Risk Management and Chief Risk Officer

Public Service Enterprise Group Incorporated

Enrique Mejorada was appointed vice president - risk management and chief risk officer (CRO) for PSEG, in December 2010.

Mr. Mejorada is responsible for implementing corporate risk management strategy and evaluating and addressing risk across all PSEG businesses.

In recent years, Mr. Mejorada has been a risk management consultant with various firms, including Peabody in Saint Louis, SAS Institute in Toronto, Sungard in Houston, and Chevron North American Natural Gas, also in Houston. Previously, he was vice president of risk management at Cheniere Energy and, before that, vice president of risk controls at Calpine, both located in Houston. Earlier, he held related positions at various Texas utility companies.

Mr. Mejorada holds three degrees from Louisiana State University – a doctorate in business administration with a major in quantitative methods, a master's in finance and a master's in quantitative methods. He also holds an MBA from Texas A&M International and an Engineering degree from Tecnologico de Monterrey.
